Report of the Forest Fire Warden

The fire season of 1953 was not a very pretty picture. It started out in fine shape with plenty of rain during the spring months. The month of June was the end of the rains and then a period of dry weather. During June we had quite a few lightning storms without any rains. On June 21 and 22 we had one of these storms that started over 43 fires in this state including the Mt. Shaw fire.

People burning without a permit or burning in unsafe places or at unsafe times were the cause of our largest number of fires. It is hard to believe why people do this when they have the expert advice of their Town Warden who is as close to them as their telephone. Your Town Forest Fire Warden is not going to stop you from burning your rubbish or your old fields, but he wants you to burn in a safe place and at a safe time. You must remember it is unlawful to burn without a permit from your Forest Fire Warden.

We have inherited a tremendous responsibility in the priceless treasure of our natural resources. To keep these natural riches we must guard them from all destructive agents. The foremost among these agents is Fire — man's best servant but worst enemy.

REMEMBER — ONLY YOU CAN PREVENT FOREST FIRES !

Report of School Nurse

The physical examinations were done in the early fall by Dr. Quinby. Needed dental attention was the main defect found.

The usual heights and weights were recorded on the individual health records. Also the routine vision check was made. Notices were sent home by those with defects suggesting a re - check be made with the family eye doctor.

The Maico machine was used to check the hearing in the spring. Since other nurses use the same machine for their schools, I have not been able to test the hearing for the present school year.

A sugar test was made for those wishing to cooperate. This was done in hopes of detecting an early case of diabetes.

The N. H. Tuberculosis Association conducted the patch testing in the school prior to the chest x - ray clinic held at Sandwich.

Before the closing of school for the summer vacation, we tried a pre - school visiting day. This was to get our present first grade acquainted with school. I gathered necessary information for the health records, weighed and measured each child, and checked the vision.

Some of the children needing booster shots were able to take advantage of the immunization clinic held at the school in the spring.

We are fortunate to have vitamin pills for all the school children donated by the Woman's Club and the Red Cross.

We are most fortunate to have Dr. Quimby connected with our schools. Very few school physicians would have given their time and knowledge as willingly as he did each day following the loss of one of our Quimby students. We appreciate all the help you gave us, Dr. Quimby.

Report of Superintendent and Principal

Last September a class of 19 children entered the first grade at Sandwich Central School. With 14 more children in grade 2, this made a very large class for one teacher to handle, especially in the first grade where the children have had no previous school experience. So that these first grade pupils might have the time and attention needed from the teacher for a good start in school, classes were rearranged to accommodate them. The first grade was made a single grade. The second and third grades were combined, as were the fourth and sixth, and the seventh, eighth, and fifth. Although this arrangement has not been ideal, we do feel that the first grade children are getting more attention and instruction than would have been possible without this change. Next year the incoming first grade is much smaller, and it should be possible to revert to the plan of two grades to a room.

In assignment of teachers this year to the various classes, the upper grade group (grades 5, 7 and 8) has been given to Mrs. Pierce, the principal. Grades 4 and 6 are being taught by Mrs. Plummer, and grade 1 by Mrs. Berry. Our new teacher, Normand Valliere, is assigned to the 2nd and 3rd grade group.

Surely the most outstanding experience of the school year is the week spent at Sargent Camp in Peterboro, N. H., by the pupils of grades 6, 7 and 8. We believe that children learn best by "doing." At Sargent Camp the children had five days of direct learning experiences. They acquired skills and information difficult to acquire in a classroom. To make this experience worthwhile, much preliminary planning and teaching had to be done. After the children chose the subjects they wanted to study at camp, they learned all they could about the subjects from their textbooks and reference books. By the time they reached camp, they were ready to go out

into the field for experiences to follow up and emphasize the knowledge they had already gained. Under the direction of their group leaders, they went out to study methods of conserving New Hampshire's natural resources. Some groups worked with maps and compasses in areas near the camp. Others learned to identify the common winter birds, and something of their habits. They collected rocks, and learned something of simple classification. One of the most valuable experiences was the experience of living and working in a large group. Each child, when it was his turn, assumed responsibility for certain duties about the camp, such as setting tables, acting as hosts or hostesses, and cleaning up after meals. Such a program should bring to each child a greater appreciation of the personal worth of others, from living and sharing together. It was a most rewarding week for both pupils and teachers.

Our teachers' workshop, held in October, 1953, dealt chiefly with the program of physical education and health in the elementary school. The discussions and demonstrations were practical and helpful. October seems the best time of year for this annual event, as it provides a helpful break in the long 16 - week fall term, which has proved to become so tiresome for our younger pupils.

The Quimby School, our local public academy, provides for us at low cost a good high school education. Its enrollment is small, and for this reason it cannot offer the variety of subjects to be found in a larger school. However, Quimby teachers are well qualified and capable, and classes are small so individual attention can be given to every pupil — something which is often lacking in larger high schools. Sometimes we feel that Sandwich people do not appreciate the value of what Quimby School has to offer, and that through the P. T. A. or some other group an effort should be made to secure a better understanding of the school program and what the Quimby trustees are doing for us.

Respectfully submitted,

Supervisory Union Report

The public may be interested in a few facts regarding the Ashland - Meredith Supervisory Union.

This group of six towns maintains an office for the superintendent in Meredith. The business of the union is under the direction of a union board, which consists of the combined school boards of all six districts.

The budget for the coming year is as apportioned among the districts as follows:

	Supt.'s salary (local share)	Other office expense (including secretary's salary)
Ashland (24.2%)	$ 919 60	$1318 90
Meredith (34.5%	1311 00	1880 24
Center Harbor (5.4%)	205 20	294 30
Holderness (12.3%)	467 40	670 36
Moultonboro (11.7%)	444 60	637 64
Sandwich (11.9%)	452 20	648 56
TOTAL	$3800 00	$5450 00

The superintendent's salary for 1953 - 54 is $6,273, of which $3,773 is collected from local districts and

$2,500 is paid by the state. Other expenses of the union are paid entirely by local funds.

The average salary of the 52 superintendents and assistant superintendents in New Hampshire for the current year is $6,664.
